VII.1: BOOKS ON COMMUNISM, 2013-2014

975 books from 55 countries have been retrieved for the 2013-2014 issue of the International Bibliography, also including selected addenda from 2012.

While compiling this bibliography, various web resources have been explored, such as numerous library online catalogues, but also bibliographies such as the bibliography of Bulgarian communism at <http://red.cas.bg/> and the "New Books from Russia" section in *Revolutionary Russia* have been particularly helpful.

Correspondents and readers are hereby encouraged to work together on the bibliography. We also look for more correspondents for the different countries and regions.
